

Bigelow.

J. D. Crisman, of Harrison county is visiting his old friends and neighbors in this vicinity.

Thomas Armstrong is repairing the front of his store, which adds very much to its appearance.

The foundation of the new Christian church is finished and the carpenters are now at work. The structure will be completed in about forty days.

L. P. Graham is kept busy making out assessment lists which had been left with his neighbors. He has no right to swear any one, but simply fills them out for accommodation.

J. L. Channing has just finished threshing his wheat; it averaged thirty-five bushels per acre. He sold 1,500 bushels to the Mound City Mill Co. at 80 cents per bushel.

Jacob Bock, an old time Republican, was seen on our streets last Saturday. He has great hopes of the Republicans carrying the states of Ohio, Iowa, New York and Massachusetts this fall.

W. H. Richards and N. J. Kyger, of Oregon, were on our streets last Friday. When they first arrived they were accused of being delegates to the County Farmers' and Laborers' Union, but they both denied it.

The Holy Sanctified people have closed their meeting at this place and truck out for greener pastures. They are holding forth now at Pax Paw'chap'ed until their new tabernacle can be built, which is now under way.

The county union of the Farmers' and Laborers' Union met at this place last Friday and was called to order by the father of all parties, Dr. J. L. Johnston, of Craig. The roll was called and just a baker's dozen answered to their names and, strange to say there wasn't a Republican in the number—the Republicans are beginning to smell a rat.

THROOP.

Sharp's Grove.

E. W. May has been suffering quite severely from an attack of asthma.

John Adkins and relatives have been visiting in Nodaway county the past week.

The Sun school is now in a thriving condition under the management of Florence Reece.

Farmers will commence cribbing their corn in about another week. Corn in the hills is a great deal better than that in the bottom this year.

We understand that work will be begun on the bottom road west of the run bridge next week. A good grade at this place has long been needed as for weeks at a time last summer it was impossible to get through with an empty wagon.

A meeting was held in Corning last Friday night, and a subscription of several hundred dollars raised toward digging a ditch from Mill creek to the river. Had this been done last spring there could have been hundreds, if not thousands, of acres of corn more in this country than there is.

REASER.

For bargains in new and second hand organs, organs, etc., go to H. C. Schmidt.

H. E. DENNY.

RUDOLPH SCHLOTZHAUER.

Lime, Lath, Hair, Cement, and all kinds of

Building Material

As Cheap as they can be sold in Northwest Missouri. Yards at Oregon and Forest City.

Public Sale!

I will sell at Public Auction on my farm, adjoining Maitland, Missouri.

Monday, Oct. 26, 1891.

20 Head of Thoroughbred Registered Jersey Cattle!

All first-class in every respect, and grand family cows. Also 30 head of Poland-China Hogs. 25 head of Chester White Hogs. All thoroughbreds. C. T. DONOVAN, Maitland, Mo.

The sale of Dr. Bond, of Elk Dale, Atchison county, of stock grain land, etc., took place Tuesday and Wednesday of last week. What stock and land was sold, brought some \$50,000. The land brought fair prices ranging from \$20 to \$50 per acre, while the stock brought good, healthy prices. Representative buyers were present from all the neighboring states. J. W. Stokes and E. J. Kellege did the auctioneering act.

Now is the time to plant fall and winter flowering bulbs for house use and it is as well to plant them in the open ground for spring flowering. Plant now in good soil in pots. Water well and put away in a dark cellar out of reach of frost. They will take nearly three months to make roots and will then begin to push above ground. By bringing out the most forward from week to week a succession of blooms may be had all winter.

Ex.
When you send a copy of your local paper to some friend, especially if he be your home visitor, always write your name on the upper margin, the same as if it had come to you through the mails, addressed at the publishing office to you. The postal law allows this, although you dare not write anything except the name. We frequently receive papers from friends who wish to let us know where they are, but we are at a loss to know who sent them. In many cases we would be much pleased to learn who sends these papers, but have no way of finding out.

Farmers, as a rule, are well supplied with vehicles and horses. They are not wedded to a life of solitude, but love cheer and sociability even better than other folks. They find time denied to them by the condition of the country roads during a large portion of the year. There is a considerable portion of the year when a drive of three to ten miles is anything but a pleasant undertaking. In the most unfavorably situated communities there are fully six months when neighborhood intercourse is denied to all but pedestrians. This should not be, and our farmers should take up this matter and remedy the evil.

I have for sale on reasonable terms, fifty eight head of horses native western horses and mules. Call at my farm, six miles southwest of Oregon and five miles south east of Forest City. Dan Jimison.

Lost—An ecraseur, an apparatus used in surgical operations on horses, northeast or northwest of Oregon, one day last week. A liberal reward will be paid for the return of the machine to this office or A. J. Carson, New Point.

C. T. Donovan will sell at public auction on his farm, adjoining Maitland, Monday, Oct. 26, 1891, 20 head of thoroughly registered Jersey cattle; 30 head of Poland China hogs and 25 head of Chester White hogs, all thoroughbreds.

There are a number of our subscribers that have been promising us words; some of them for to these many days. We would like for you to come forward with that commodity now gentlemen, before the roads get so bad that you cannot find for another twelve months. Who'll be the first?

Lead after lead of lumber and building material is being received every day by our enterprising lumber dealers, Pinkston & Hoblitzell. They extend a cordial invitation to all to call, and inspect their stock and get figures. They will figure as close as the next one.
